'Queer' a word used by gays

In reference to Mayor Isaac and the accusation made against him (which I don't believe) saying he used the descriptive word "queer." And if he did, so what?

Most of us have heard of the group who entitled themselves "Queer Nation," so they must like the title. They proudly proclaimed President Clinton to be "pro-queer."

In Florida is a radio talk show (WFTL 1400 AM) who gave themselves the program name of "Queer Talk." In parades you will see gays carrying signs that say "queer."

Why — all of a sudden — is the bar association offended by and screaming about the title "queer"? Just because they weren't able to get their way and bully our mayor into writing a ridiculous letter they dictated.

Mayor Isaac's statement about the lawyers — "To tell you the truth, they bore me; they're an embarrassment" — made my day!
